

Who can help you save for their future?

In the past ten years, tuition costs have increased by 135%.* What will they be 18 years from now?

Today's job market requires more and more training and education. According to a recent Canadian study, two out of three jobs now require a postsecondary education.

Cost of a university education over 4 years**

^{**} Based on a 2% annual inflation rate and an annual 3% increase in tuition fees. Source: Statistics Canada (2015 study)
